

A detailed cross-sectional view of a mechanical assembly. The assembly features a central vertical cavity. At the top, there is a flange-like structure with internal features labeled 14a, 13a(13b), and 14c. Below this, the main body of the assembly is shown with various internal components. On the left side, labels 12a, 14b, 15a, and 16a point to specific features. On the right side, labels 12b, 14d, 10a(10b), 15b, and 16b point to corresponding features. At the bottom, a component labeled 11 is visible, which appears to be a base or support structure. The drawing uses hatching to indicate different materials or cross-sections of the components.
